DESIGN

Our engineering department works closely with you to ensure a smooth project execution.

MACHINE

A focus on lean process eliminates product handling by using in-house machining for cutting, punching, rolling, etc.

FABRICATE

World class welders using state-of-the-art equipment provide the utmost in quality and value.

TEST

Our team of Certified Welding Inspectors exceed industry standards with thorough inspection procedures.

DELIVER

Top-notch logistical capabilities for truck or barge shipment to locations throughout the world.

REPEAT

Manage successful projects to earn repeat business, establishing rapport with quality clients and vendors.

MEET

TOM MORAN

Founder & Chief Executive Officer

Born and raised in Onaway, Michigan, Tom started Moran Iron Works after high school graduation. His vision for growth and prosperity in Northeast Michigan has become a reality through forty years of hard work and dedication in the trades industry.

FROM DESIGN TO DELIVERY,
AND EVERYTHING IN BETWEEN...
WE ARE YOUR FULL SERVICE FABRICATOR.
